

## automatic assembly of stickers | Product specification

### delivery of stickers on carrier roll with:

- 76 mm diameter
- single lane outer winding; word end ahead
- space between stickers on roll min. 2 mm
- only square, round and oval stickers

### sticker size:

min. edge length 20 mm / max. edge length 150 mm

Please note: The sticker must be placed at least 5 mm from the outer edge of the cover. When applying the sticker an offset of up to 5 mm is possible. This means barcode stickers that are to cover existing codes should be 6 mm wider / higher than the bars with numbers to be covered.

Example of possible positioning on the covers:
